detective hank and the golden sneeze

It's skiing, and the gameplay is pretty good. However, I don't think there's enough content to keep you hooked to justify the price tag if you're the only one playing.. Puzzling simplicity. um... hello? devs? anyone there? :/ it seems like i'm the only one here... Looks simple, but it is ultimately a bit complex. Still, I'd recommend this game for nostalgic JRPG players or people who just want to sit back, relax, and play a game that's placid, especially with the audio track.. Horizontal Shumps are scarce. Do add this game to your collection its a great astro port shump game

I tried the demo, played a few videos, and was quite impressed with it.

I had a few other Media-Players installed on my computer, but right away I could notice better crispness, clarity and an overall greater quality of the video and audio that I see and hear with Zoom Player. I like the simplicity and intuitive feel of the controls, yet there are still a lot of options available that I can experiment with and set things to how I like. This will now be my default Media Player, and I'm glad to have bought the full version to help support the Developers of this high-quality software.

For a full list of features and comparisons of the different versions of Zoom Player, visit the following page:

PS: As for the argument I see from some, "Why buy Zoom Player when there's plenty of free media-players available?".... Well, call me strange, but I like to help support the Developers of programs I enjoy and use.

Yes, there's free media-players out there, but they also tend to have a "Donate" option some place on their website or an option to upgrade to a Pro version. Plus, there's also a free-version of Zoom-Player that can be downloaded as well.. This is a very good deal if you aren't high enough level/stats or u aren't in a guild and can't really utilize keys you can have people pay you to open Tomes and tip you at the end based on loot drops etc. The Ambrosia alone is worth around 10\$ making this deal quite the deal. Each of those keys are 2.50\$ each, Backpacks 1\$ and each dye is around 1-1.50\$. This is a great way to get ur pet leveled. I still need a heal Mheal pet. I am only going for humanoid eggs now since they guaranteed have heal.. The game released to a sound of applause from the indie community, and had a kick♥♥♥♥♥soundtrack to go with it. Many bugs on initial release but time would fix things.

3 years on and not a single bug has been fixed. No replies from the developers, and the result is a mildly repetitive game that you can enjoy for a couple of hours at most. Simple mechanic changes and a round of bug fixes would give this game a good shelf life, but it seems the devs were more interested in a cash grab.

Do not buy this game. Support the artist, buy the album, and potentially play Audiosurf 2 with it instead.. It's like Myst except they forgot to put puzzles in.. This game is Crap!!!!!!! A lot of the physics based mechanics are bad. The magnets do not work at all. The only game like this worth getting is the "Incredible Toon Machine". Ive sent emails to this company with no answer. DO NOT WASTE YOUR TIME WITH THIS GAME.. Broken controls, no optimization. Absolutely terrible I'm sorry. Instant catastrophe. Got a refund after 8 minutes of playing.

Ok not trying to be a\u2665\u2665\u2665\u2665\u2665 but since you want and need constructive feedback, here it is: Move character with head movement, or show 3d body.. This game is incredibly enjoyable. The challenges are difficult enough to be frustrating and easy enough that it keeps your interest and doesn't seem hopeless. 1.5 hours in one session so far, and we're not done yet!. This game have a good start since it still CBT and many thing need to be done, but hey it same with PUBG at that time. Just give it time. This game's been completely abandoned. Released in July, abandoned in August. Don't bother. Disappointed.
