Boomkat First, Boomkat is a record label, founded in 2012 and based in Los Angeles, California. The label's entire history is connected with the underground scene and many artists of the genre, such as big names like B.o.B, Metro Boomin, and YG, as well as some up and coming artists like Tee Grizzley, Lil Yachty and Teebs. In other words, it's one of the leading record labels for the underground trap music. The fact that the label is also releasing music by artists from different genres like Latin trap or Latin American trap, house and electronic music has helped Boomkat to keep its longevity. The entire history of the label can be found at the label website, which includes all the information and the archive of all releases, starting from the first mixtapes and singles and also including the EP's, albums, and singles. Boomkat also includes the dj's and producers of the label, like DJ Dey, Gucci, DJ Mustard, DJ Shotti and other well-known names. A musical history of the label is also available on its website. Boomkat is releasing yet another annual compilation, and this time, it's called Boom! Time to Get Yo Girl. The compilation includes big names like Metro Boomin and YG as well as up and coming artists, and since it's the fourth annual compilation, this means that the album will include artists like 21 Savage, Tee Grizzley, Lil Yachty and more. The entire album is made up of 14 mixtapes and singles that were previously released by the label, so this means that this annual compilation is a great way for those who follow the underground trap music to get to know a lot of the artists at Boomkat, without needing to buy all of their albums and singles.
